DON'T TAKE ANY CHANCES...

Access platforms make working at height safer and more efficient but they need to be properly maintained and repaired when they breakdown.

PSR is the UK's largest dedicated provider of after-sales services and technical support for powered access platforms. Our directly-employed mobile service engineers cover the country and are properly qualified, equipped and supported. We take working on platforms very seriously, and so should you when choosing a company to inspect, service or repair your machine - after all, your employees safety is in their hands!

WHAT WE DO...

- Six-monthly mandatory LOLER inspections
- Scheduled service & maintenance contracts
- Fast on-site emergency breakdown repair
- Long term, fixed price repair & maintenance contracts
- Major repairs, rebuilds and accident repairs

WHY WE'RE DIFFERENT...

National network

23 mobile service engineers (4 in Scotland) ensure fast breakdown response and no excessive travel charges.

Qualified personnel

Our engineers all have CAP certification and undertake ongoing training including specialist manufacturers courses to ensure high quality of workmanship and efficient fault diagnosis to save time and money on site. They are fully supported by our technical helpdesk and manufacturer's technical departments.

Competitive prices

While we don't believe it is possible to provide a professional service on the cheap, our expertise, scale and organisational abilities means we offer real value for money. We are confident we can match or beat any like for like quote from a bona-fide contractor, so please contact us to find out more.

Unrivalled parts availability

Our IPS division is the largest independent supplier of parts for access platforms and PSR's engineers are fully supported by their extensive stocks, knowledge and competitive pricing. Our engineers carry a carefully selected range of parts on their vans to increase the chances of a first time fix.

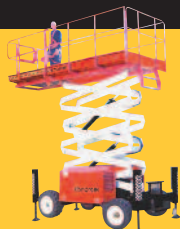

Any type, any make - we can help! Call or click for a quote today and ask about our **30% off introductory offer:**
